## **Survival Kit Urban Ukraine – PLUS**

Sleeping bag, winter  To be used placed on an insulating surface, e.g. bed, mattress, carpet, cardboard.  Can be used as an extra blanket over several people.  Rescue blanket  Warming of hypothermic person  Extra heat-reflective layer in sleeping bag  Reflector screen around heat source  Heat reflective wind protective cover for broken windows and doors  Solar panel, large  Placed facing the sun during daylight hours  Power bank charging  Direct charging of headlamp, cell phone or computer  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in unsafe water		
bed, mattress, carpet, cardboard.  Can be used as an extra blanket over several people.  Rescue blanket  Warming of hypothermic person Extra heat-reflective layer in sleeping bag Reflective underlay under sleeping bag Reflector screen around heat source Heat reflective wind protective cover for broken windows and doors  Solar panel, large Placed facing the sun during daylight hours Power bank charging Direct charging of headlamp, cell phone or computer  Power bank, high capacity Rechargeable power source Charged with solar panel during daylight hours Charging of headlamp, cell phone or computer Can be charged from another power source  Headlamp, rechargeable Charged via power bank or solar panel Work and room illumination Emergency signalling  Water purification tablets, 50 tablets 1 tablet per 1 litre of water Drinkable after 30 minutes Kills bacteria, viruses and other microorganisms in		Sleeping bag, winter
Can be used as an extra blanket over several people.  Rescue blanket  Warming of hypothermic person  Extra heat-reflective layer in sleeping bag  Reflective underlay under sleeping bag  Reflector screen around heat source  Heat reflective wind protective cover for broken windows and doors  Solar panel, large  Placed facing the sun during daylight hours  Power bank charging  Direct charging of headlamp, cell phone or computer  Power bank, high capacity  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in		To be used placed on an insulating surface, e.g.
Rescue blanket  Warming of hypothermic person  Extra heat-reflective layer in sleeping bag  Reflective underlay under sleeping bag  Reflector screen around heat source  Heat reflective wind protective cover for broken windows and doors  Solar panel, large  Placed facing the sun during daylight hours  Power bank charging  Direct charging of headlamp, cell phone or computer  Power bank, high capacity  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in		bed, mattress, carpet, cardboard.
Rescue blanket  Warming of hypothermic person  Extra heat-reflective layer in sleeping bag  Reflective underlay under sleeping bag  Reflector screen around heat source  Heat reflective wind protective cover for broken windows and doors  Solar panel, large  Placed facing the sun during daylight hours  Power bank charging  Direct charging of headlamp, cell phone or computer  Power bank, high capacity  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in		Can be used as an extra blanket over several
Warming of hypothermic person     Extra heat-reflective layer in sleeping bag     Reflective underlay under sleeping bag     Reflector screen around heat source     Heat reflective wind protective cover for broken windows and doors      Solar panel, large     Placed facing the sun during daylight hours     Power bank charging     Direct charging of headlamp, cell phone or computer      Power bank, high capacity     Rechargeable power source     Charged with solar panel during daylight hours     Charging of headlamp, cell phone or computer     Can be charged from another power source  Headlamp, rechargeable     Charged via power bank or solar panel     Work and room illumination     Emergency signalling  Water purification tablets, 50 tablets     1 tablet per 1 litre of water     Drinkable after 30 minutes     Kills bacteria, viruses and other microorganisms in		people.
Extra heat-reflective layer in sleeping bag     Reflective underlay under sleeping bag     Reflector screen around heat source     Heat reflective wind protective cover for broken windows and doors      Solar panel, large     Placed facing the sun during daylight hours     Power bank charging     Direct charging of headlamp, cell phone or computer  Power bank, high capacity     Rechargeable power source     Charged with solar panel during daylight hours     Charging of headlamp, cell phone or computer     Can be charged from another power source  Headlamp, rechargeable     Charged via power bank or solar panel     Work and room illumination     Emergency signalling  Water purification tablets, 50 tablets     1 tablet per 1 litre of water     Drinkable after 30 minutes     Kills bacteria, viruses and other microorganisms in		Rescue blanket

Heat reflective wind protective cover for broken windows and doors      Solar panel, large         Placed facing the sun during daylight hours         Power bank charging         Direct charging of headlamp, cell phone or computer          Power bank, high capacity         Rechargeable power source         Charged with solar panel during daylight hours         Charging of headlamp, cell phone or computer         Can be charged from another power source          Headlamp, rechargeable         Charged via power bank or solar panel         Work and room illumination         Emergency signalling          Water purification tablets, 50 tablets         1 tablet per 1 litre of water         Drinkable after 30 minutes         Kills bacteria, viruses and other microorganisms in		Reflective underlay under sleeping bag
Windows and doors  Solar panel, large Placed facing the sun during daylight hours Power bank charging Direct charging of headlamp, cell phone or computer  Power bank, high capacity Rechargeable power source Charged with solar panel during daylight hours Charging of headlamp, cell phone or computer Can be charged from another power source  Headlamp, rechargeable Charged via power bank or solar panel Work and room illumination Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water Drinkable after 30 minutes Kills bacteria, viruses and other microorganisms in		Reflector screen around heat source
Solar panel, large  Placed facing the sun during daylight hours  Power bank charging  Direct charging of headlamp, cell phone or computer  Power bank, high capacity  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in		Heat reflective wind protective cover for broken
<ul> <li>Placed facing the sun during daylight hours</li> <li>Power bank charging</li> <li>Direct charging of headlamp, cell phone or computer</li> <li>Rechargeable power source</li> <li>Charged with solar panel during daylight hours</li> <li>Charging of headlamp, cell phone or computer</li> <li>Can be charged from another power source</li> <li>Headlamp, rechargeable</li> <li>Charged via power bank or solar panel</li> <li>Work and room illumination</li> <li>Emergency signalling</li> <li>Water purification tablets, 50 tablets</li> <li>1 tablet per 1 litre of water</li> <li>Drinkable after 30 minutes</li> <li>Kills bacteria, viruses and other microorganisms in</li> </ul>		windows and doors
Power bank charging     Direct charging of headlamp, cell phone or computer  Power bank, high capacity     Rechargeable power source     Charged with solar panel during daylight hours     Charging of headlamp, cell phone or computer     Can be charged from another power source  Headlamp, rechargeable     Charged via power bank or solar panel     Work and room illumination     Emergency signalling  Water purification tablets, 50 tablets     1 tablet per 1 litre of water     Drinkable after 30 minutes     Kills bacteria, viruses and other microorganisms in		Solar panel, large
Direct charging of headlamp, cell phone or computer      Power bank, high capacity     Rechargeable power source     Charged with solar panel during daylight hours     Charging of headlamp, cell phone or computer     Can be charged from another power source      Headlamp, rechargeable     Charged via power bank or solar panel     Work and room illumination     Emergency signalling  Water purification tablets, 50 tablets     1 tablet per 1 litre of water     Drinkable after 30 minutes     Kills bacteria, viruses and other microorganisms in		Placed facing the sun during daylight hours
Power bank, high capacity  Rechargeable power source Charged with solar panel during daylight hours Charging of headlamp, cell phone or computer Can be charged from another power source  Headlamp, rechargeable Charged via power bank or solar panel Work and room illumination Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water Drinkable after 30 minutes Kills bacteria, viruses and other microorganisms in		Power bank charging
Power bank, high capacity  Rechargeable power source  Charged with solar panel during daylight hours  Charging of headlamp, cell phone or computer  Can be charged from another power source  Headlamp, rechargeable  Charged via power bank or solar panel  Work and room illumination  Emergency signalling  Water purification tablets, 50 tablets  1 tablet per 1 litre of water  Drinkable after 30 minutes  Kills bacteria, viruses and other microorganisms in		Direct charging of headlamp, cell phone or
<ul> <li>Rechargeable power source</li> <li>Charged with solar panel during daylight hours</li> <li>Charging of headlamp, cell phone or computer</li> <li>Can be charged from another power source</li> <li>Headlamp, rechargeable</li> <li>Charged via power bank or solar panel</li> <li>Work and room illumination</li> <li>Emergency signalling</li> <li>Water purification tablets, 50 tablets</li> <li>1 tablet per 1 litre of water</li> <li>Drinkable after 30 minutes</li> <li>Kills bacteria, viruses and other microorganisms in</li> </ul>		computer
<ul> <li>Rechargeable power source</li> <li>Charged with solar panel during daylight hours</li> <li>Charging of headlamp, cell phone or computer</li> <li>Can be charged from another power source</li> <li>Headlamp, rechargeable</li> <li>Charged via power bank or solar panel</li> <li>Work and room illumination</li> <li>Emergency signalling</li> <li>Water purification tablets, 50 tablets</li> <li>1 tablet per 1 litre of water</li> <li>Drinkable after 30 minutes</li> <li>Kills bacteria, viruses and other microorganisms in</li> </ul>
